

Mitchell School of Fine Arts

ART CLASSES

Students explore various art mediums with traditional and contemporary concepts through subject matters including animals, faces, anime, still-life, master-copies, landscapes and much more. Our curriculum is based on developing artistic literacy in the fundamentals of classical visual fine arts utilizing drawing materials such as: pastels and various paint mediums. Our teaching methods are derived from classical and modern concepts that empower artists with all levels of experience and encourages artistic freedom for students to find the passion in illustration, architecture, capturing a loved one's expression, or showing off a beautiful hand-painted nature scene.
